- Internally beaded for security
- Open in and open outdoors available
- "Master" doors with 3 point locking available
- French door opening configuration available

TECHNICAL FEATURES

Design

Xlafold enables the creation of a sleek and modern bifolding door for enhanced visual appeal at any room.

Features

It has an ultra-smooth action, even in heavy leaves of maximum 100 kg. This system has bespoke, adjustable and heavy duty rollers, including a half roller option which ensure uniform pane widths for enhanced visual appeal.

Benefits

Xlafold is a thermally efficient bi-folding door which gives a U_w value of 1,2 W/m²K.

Possibilities

Xlafold facilitates glazing options from 10 to 40 mm, making it ideal for commercial single glazed sites or even to accommodate a triple glazed unit when thermal performance is key. This bi-folding door incorporates a low threshold cill option with a “clip” on ramps either side, enhancing the design options for the system.
